The NMRA does not guarantee nor imply that any registered name is exclusive. It does certify that a registered pike name has not been registered to another modeler, and will not be released to any other applicant during the two year the originating registration is valid. Continued registrations for the same pike name by the originating member will be honored.

Include \$10.00 for each railroad name requested for listing, reporting marks included. When a pike name is registered, the reporting marks are included in the registration. You will receive an NMRA Pike Registration Certificate, suitable for framing, and a CD that contains the 2005-2006 issue of the Pike Registry. **TO AVOID PUBLICATION ERRORS PLEASE PRINT YOUR INFORMATION CLEARLY.**

Please make checks payable to "**Pike Registry (NMRA)**".

Send completed form and registration fee to:
